SPECIFIC POLYGRAPH EXAMINATION/S RE: July 17, 1990 Shooting

On 8/9/90, Dominic Franza voluntarily came to this polygraph suite for a polygraph examination.

The main issue under consideration was whether or not Mr. Franza was telling the truth when he claimed that he had no guilty knowledge of nor had he participated in a shooting that occurred on July 17, 1990. The victims of the aforementioned shooting were Mr. Franza's wife Myra and his mother-in-law Josephine Mendez.

The facts concerning this case were provided the polygraphist by Dominic Franza.

Before his pre-test interview, Mr. Franza voluntarily signed two copies of a permission form stating that he was taking the examination of his own free will. One copy of this executed form is enclosed with this report; the other has been incorporated into our case file.

In the polygraph recordings, there were indications of truthfulness when Mr. Franza answered "NO" to all four of his pertinent test questions, which were:

1. On July 17th, at 3:00 PM, did you then already know Myra was going to hurt?
2. Did you shoot your wife Myra?
3. Did you plan with anyone to have your wife or mother-in-law hurt?
4. Did you plan with anyone to have your wife Myra shot?

CPI Case No.G-7136

It is the opinion of the polygraphist, based upon the polygraph examination of Mr. Franza, that he is telling the truth to his pertinent test questions.

In order to maintain high validity, the polygraph examination procedure is usually restricted to four pertinent test questions. The above four were selected by the polygraphist as being the four best test questions to ask in order to bring out either the truthfulness or lying of Mr. Franza about the main issue under consideration.

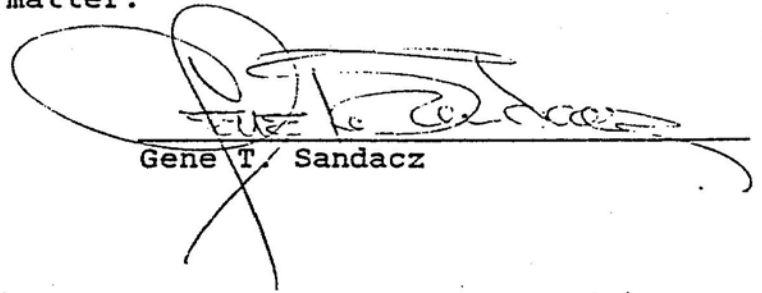

Respectfully submitted,
